OUR STORY

MOBILITY LIVE INDONESIA brings together thousands of professionals, including, fleet, sustainability, asset and facilities managers, as well as decision-makers from government, business, energy, retail and beyond, from across Indonesia and Asia. Attendees explore the latest in EVs, charging solutions, batteries, sustainable mobility, micromobility and Mobility-as-a-service, driving the future of transportation.

MOBILITY LIVE INDONESIA is a place for the community to:

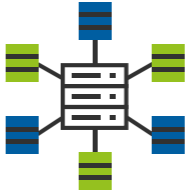

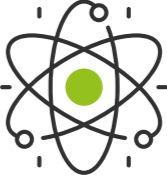

- Promote innovation
- Assess the latest tech
- Benchmark best practice
- Exchange ideas and knowledge
- Understand market and technology dynamics
- Form new partnerships and collaboration
- Meet and invest in start-ups
- Purchase

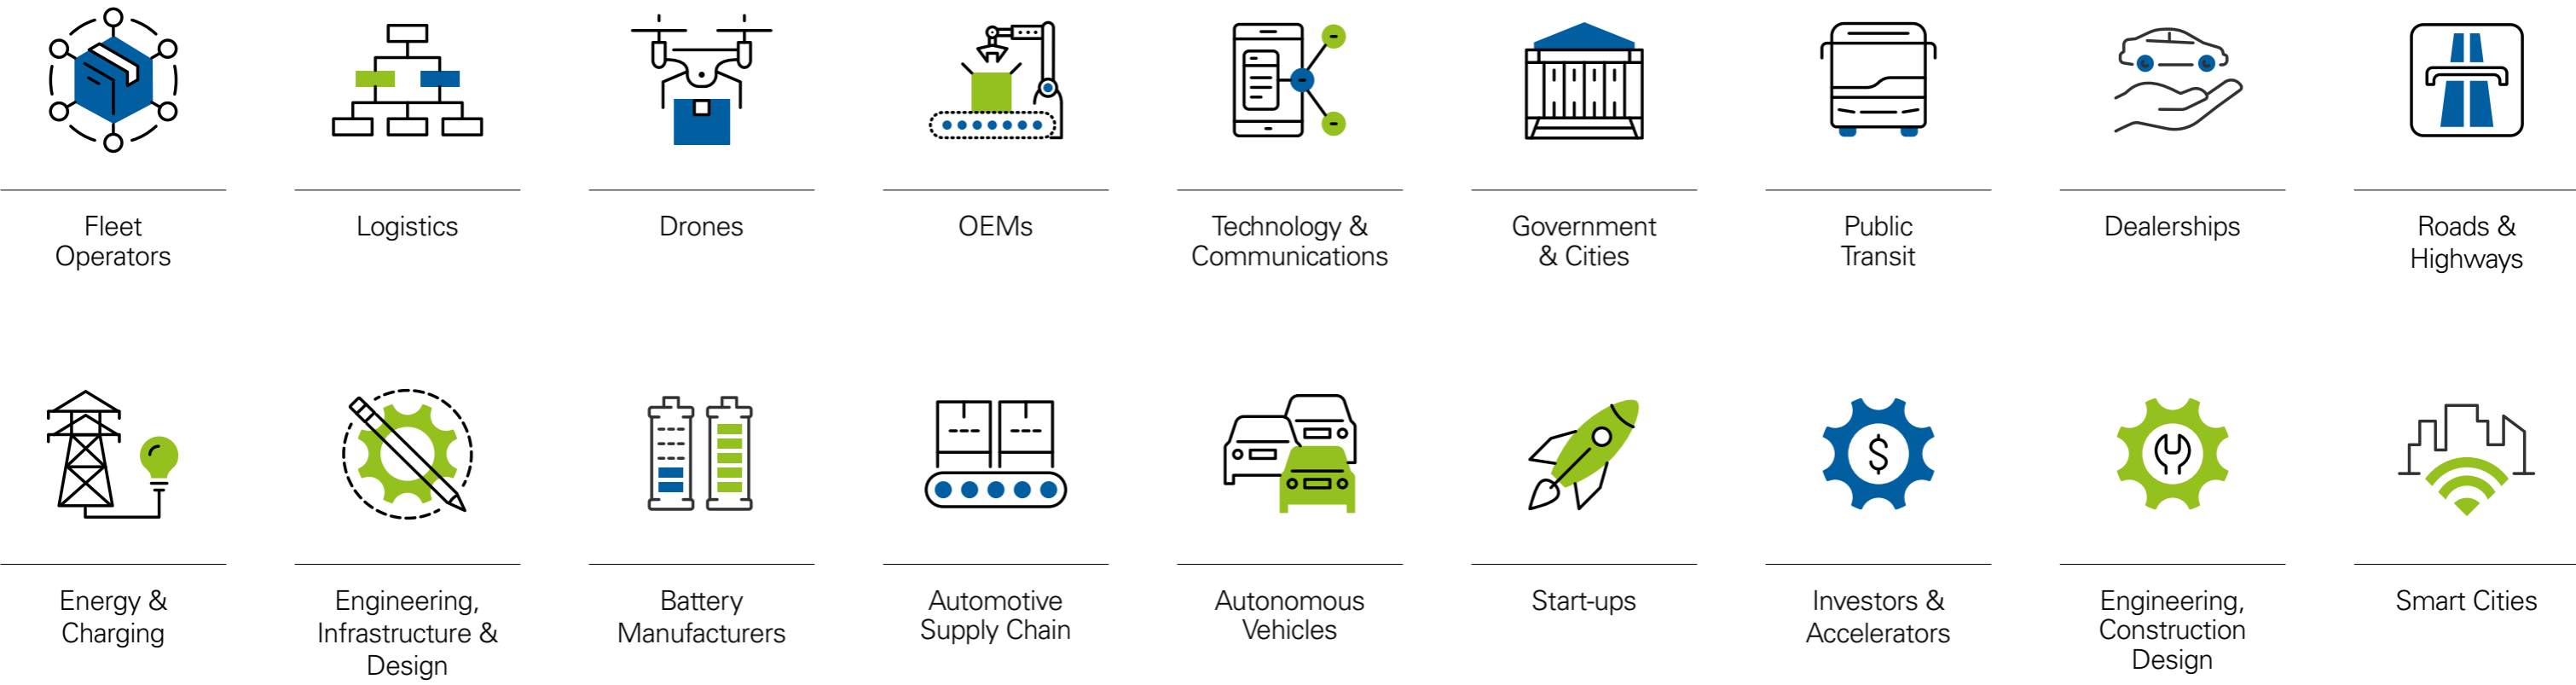

MOBILITY LIVE FEATURES A WORLD CLASS CONFERENCE

In addition to the massive trade show, we also feature a multi-faceted conference with over 100 speakers across eight themes, providing the most comprehensive and multi-disciplined event in Indonesia. The conference is carefully curated by an experienced team who have plugged into the global network. Our presenters are visionary industry leaders and disruptors from all disciplines. They are selected for their relevance, dynamism and insight.

EVCHARGE LIVE INDONESIA

INFRASTRUCTURE • INVESTMENT • INSTALLATION
FOR CPO'S INSTALLERS, SITES, GOVERNMENT AND FLEETS

Charging infrastructure will soon be in every facility and street in Indonesia—we are on the verge of extremely large investment and deployment. Because very soon most vehicles will be EVs.

Terrapinn is excited to announce the launch of EVCharge Live Indonesia 2025. Hosted alongside Mobility Live Indonesia 2025, the event will focus on critical areas such as facilities, fleet management, and installation, providing an unparalleled platform for networking, knowledge-sharing, and exploring cutting-edge solutions.

EVCharge Live Indonesia will offer two days of insightful sessions and collaborative discussions. Attendees can expect exceptional benefits, including establishing thought leadership, building brand awareness, launching new initiatives and products, attracting investors, forming partnerships, and directly engaging with potential customers to sell products and services.
